

KU-Band Antenna

Andrew 4.6M Earth Station Antenna

4.6M Earth Station Antenna is two port KU-Band TX/RX non motorized. Originally it was installed with full de-ice, but now only the lower part works.

Because so many of our clients come from warmer climates and have no need of de-ice we have not taken the time to fix the problem, but if the new buyer requires full de-ice we will look at the...
